

THE MAGIC NEWSPAPER

JUNE 2024

WHAT'S
NEW?

All
about
US

This edition of The Magic Newspaper is the result of the cooperation of students from 3 different schools participating to the eTwinning project "Our Voices".

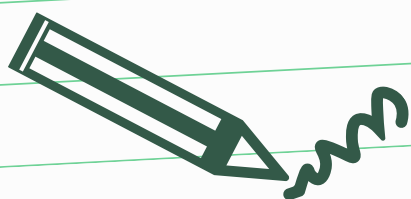

The project involved students interested to let their voices be heard in Europe. Our newspaper is **magic** because through the activities we have increased our competences in English language (oral and written), our ICT skills, our entrepreneurship capacities and ... we had a lot of **fun**!

OUR LOGO

The schools involved in the realization of this newspaper are:

- I.C. Don Bosco, Santa Maria di Licodia (Italy)
- Ozel Isparta Doga Ortaokulu (Turkey)
- Szkoła Podstawowa nr 140 im. Kazimierza Jeżewskiego w Warszawie (Poland)

Keep
reading
about us
:-)

ISTITUTO COMPRENSIVO DON
BOSCO,
SANTA MARIA DI LICODIA
(ITALY)

This year has been special for many reasons.
We have participated in many sports
competitions in our school and also against
other schools.

We have participated in many school trips
and we have learnt a lot of things while
having fun!

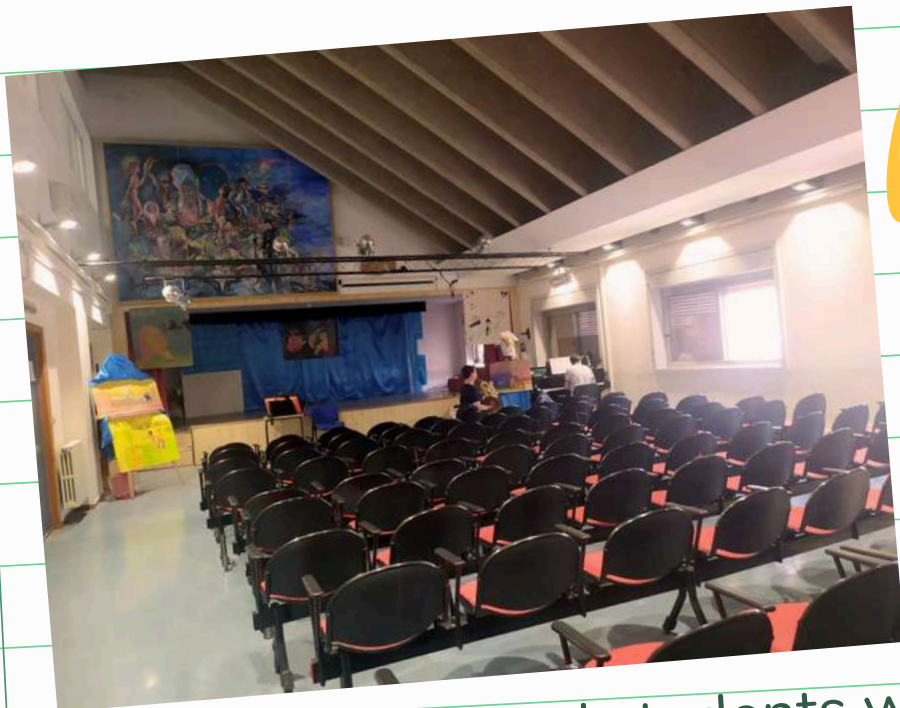

We have had the opportunity to read books
in our classes and meet their authors.

For World Book Day, we exchanged postcards with schools located in many parts of Europe giving some book recommendations. In the end a postcards exhibition was held in our school. It was an eTwinning project.

eTwinning is a fantastic opportunity for us and we hope to meet our international friends soon!

We also have had the possibility to attend courses in the afternoons and participate in an event for which we danced and sang.

Next year, in our school students will have the possibility to study a musical instrument (piano, French horn, oboe, saxophone).

A special thing about the Italian school is that students with special needs don't attend different schools like many countries in Europe. In Italy, they attend normal classes with the support of a special needs teacher.

SZKOŁA PODSTAWOWA NR 140
IN WARSAW,
POLAND

Our school is not quite big but we have nice outdoor playgrounds and a playground for younger children. We also have a gym and a library where we can develop our interests. We learn, as in most schools, in classes dedicated to a given subject.

In our school we have 29 classrooms. Most of them are for different subjects. Some classrooms are for more than one subject, like (our favourite) classroom number 14 in which we learn English and Biology.

We usually spend breaks in the corridors, but when it gets warm we go outside. Our school also has 3 outdoor playing courts which are 2 for basketball and one for handball and football. We also have a running track that is 250 meters long.

ISPARTA DOGA SCHOOLS, IN ISPARTA (TURKEY)

Welcome to Isparta Doga Schools! We are an eco-friendly and diverse school that cares about helping all students learn and improve their skills. Our school has been around for a long time, and we work hard to ensure everyone feels welcome and supported. Every year, we organize tournaments for basketball, football, and volleyball. We also offer weekend courses based on our interests. On weekdays, we have academic sessions to help with subjects we don't understand.

We have a huge garden that includes basketball and football courts, as well as a mini zoo. In the zoo, we have rabbits, dogs, a peacock, and some geese. If the weather is cold or it's raining, we stay in our long corridors, but if it's hot, we stay in the garden during breaks. Türkiye is a country that has many national holidays, and we celebrate them in our conference room, which can accommodate up to 300 people.

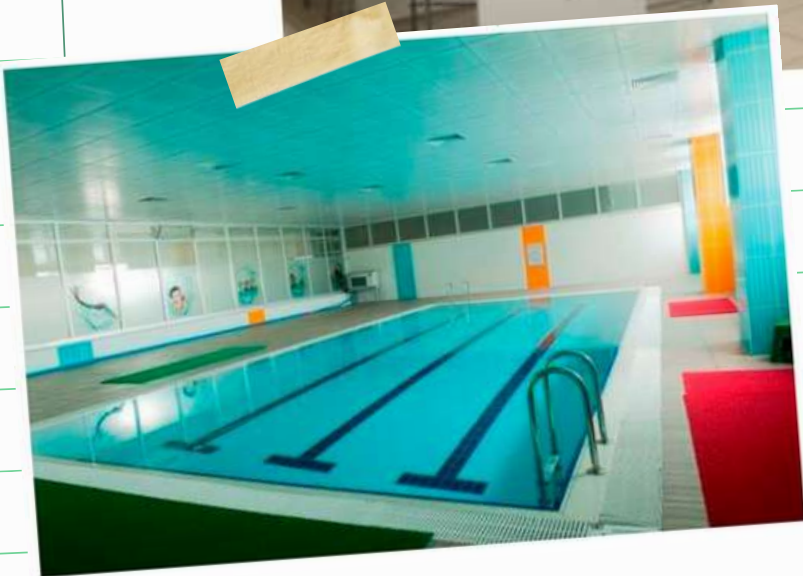

We also have interesting lessons such as ecology classes. In this lesson, we can grow our vegetables or fruits and also we can learn lots of things about nature.

We learn German and English as languages. We have a pool and a library and also English classes. We have lots of laboratories for physics, chemistry, biology, robotics and also IT lessons. In our school, our students age 4-18 mean we have kindergarten, primary, secondary, and also high school in the same building. We participated in lots of projects in whole age groups this year. For example, kindergarten students sent letters to France for E-twinning their project. High school students participated in Tubitak projects that are important in Türkiye.

We participated Hippo 2024 exam and 3 students might go to the Qualifiers exam in Italy. For psychological and academic help, we have trustworthy school counselors. Lastly, I can say that we have a joyful and sociable school! Trust me, you won't struggle to make new friends. It's our school Instagram link where you can see lots of things about our school and our school activities.

our magic recipes

Meeting a culture is also learning about traditional dishes and the way food is prepared in another country.

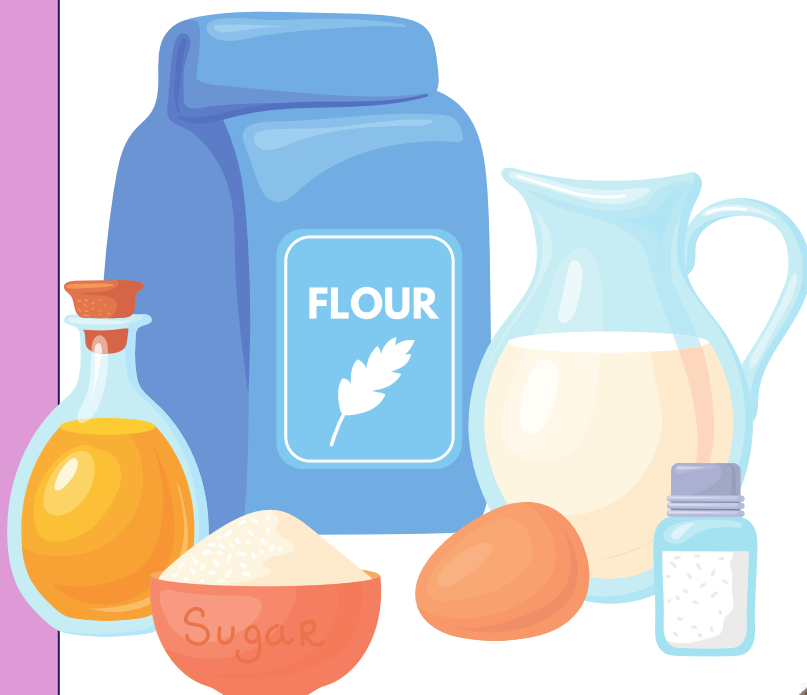

Each group of students has proposed a local recipe to show how we eat and the food we prefer.

It has been so "good" to see differences and similarities of our food culture.

In this section, you will find some traditional recipes of our culture.

If you want, you can try to prepare them at home.

All the proposed recipes are delicious!

BORSHT, A POLISH SOUP

One of the most popular dishes in Poland is soup red borsht, pork chop, dumplings and apple pie. To make borsht you need water, vegetables such as beetroots, celery and leek. You need also a bit of flour and cream.

If you want to eat pork chop you will need to prepare some pork meat, milk, flour, eggs and breadcrumbs.

To your pork chop as a side dish you can add smashed potatoes and mizeria (it is a salad with cucumber and cream).

Dumplings you can eat with different filling. You can eat them with meat, mushrooms, cottage cheese or berries.

For the dessert we recommend apple pie. To make it you need apples, flour, butter, eggs, sugar and baking powder.

HANNA POLOWCZYK

ITALIAN TIRAMISU'

- This recipe is not the original one, but a version that could be easily consumed by kids.

INGREDIENTS:

Instant barley drink, ladyfingers, sugar, whipped cream, mascarpone cheese and cocoa powder.

-RECIPE:

Take a small bowl and put water, sugar and barley powder in it. Then take the ladyfingers and soak them into the liquid in order to soften them. Then take the ladyfingers and put them in a glass baking dish. Then cover them with a mix of whipped cream and mascarpone cheese. Then make another layer. Finally cover with the cocoa powder and put the dessert in the fridge for a couple of hours.

Giuseppe Russo

STUFFED RED PEPPER (KIRMIZI BIBER DOLMASI IN TURKISH)

INGREDIENTS:

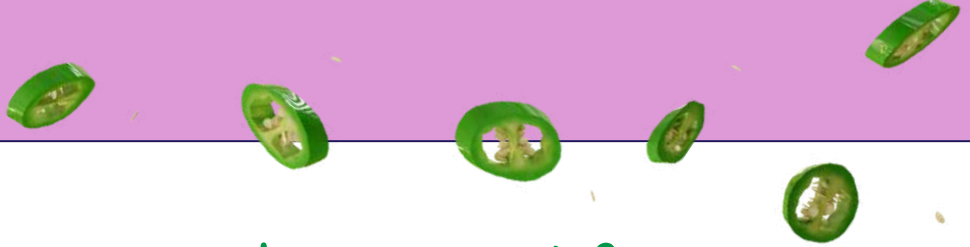

- Pepper
- 1 Onion
- ½ Cup of Oil
- 1 Spoon of Pepper Paste
- 1 Spoon of Tomato Paste
- Black Pepper
- Mint
- Salt
- Cumin
- Chili Pepper
- 2 Cups of Rice
- 2 Cups of Water

INSTRUCTIONS:

1. First, roast the onion with oil.
2. Then, add the pepper paste, tomato paste, mint, salt, cumin, chili pepper, and mix them well.

1. Next, add the rice and water. Boil for 15 minutes.

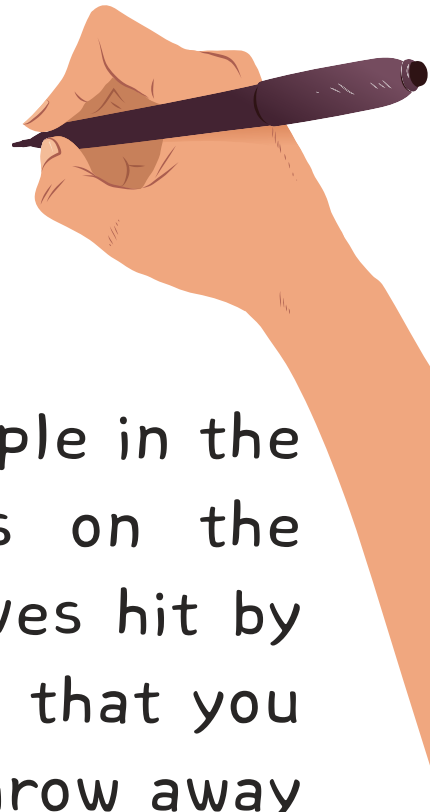

2. Finally, hollow out the peppers. Fill the peppers with the rice mixture and boil for 30 minutes.

★ Bon Appetit!

Smaczneho!

RESPECT FOR ALL

There are heartless and evil people in the world who leave their animals on the streets where they lose their lives hit by cars. An animal is not something that you can keep for a while and then throw away like an object.

People should understand that animals should be treated well. Unfortunately, there are many sad stories about animals treated badly. I want to tell a story of a little cat who was found dead with a screwdriver in his eye, in Sicily. We don't know who did this crime but they will get the sentence they deserve. I don't understand why a person should do this to a poor animal. They probably think it's funny. In my opinion it is horrible!

If it had happened to a person, the city police and firefighters would have run to help, while an animal doesn't deserve any help. People don't think about animals. For this reason, I believe that the world should know what happens to animals. Unfortunately, violence on animals is becoming increasingly frequent. I would like to spread the message RESPECT DOES NOT ONLY APPLY TO PEOPLE BUT ALSO TO ANIMALS.

Ginevra Piana

E-SAFETY

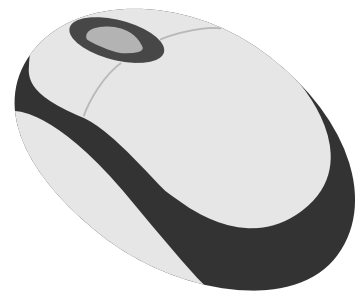

Being safe on the Internet is very important for young people. We prepared a list of things you should and shouldn't do on the Internet.

You mustn't:

- share personal information
- Cyberbully and hate
- Share passwords
- Enter dangerous websites
- Fall for scams
 - Arrange meetings with people met online

You must:

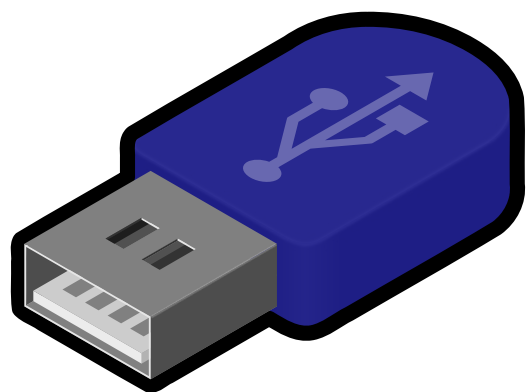

- Protect your privacy
- Use strong passwords
- Control your screen time
- Download antivirus software
- Report illegal or harmful content

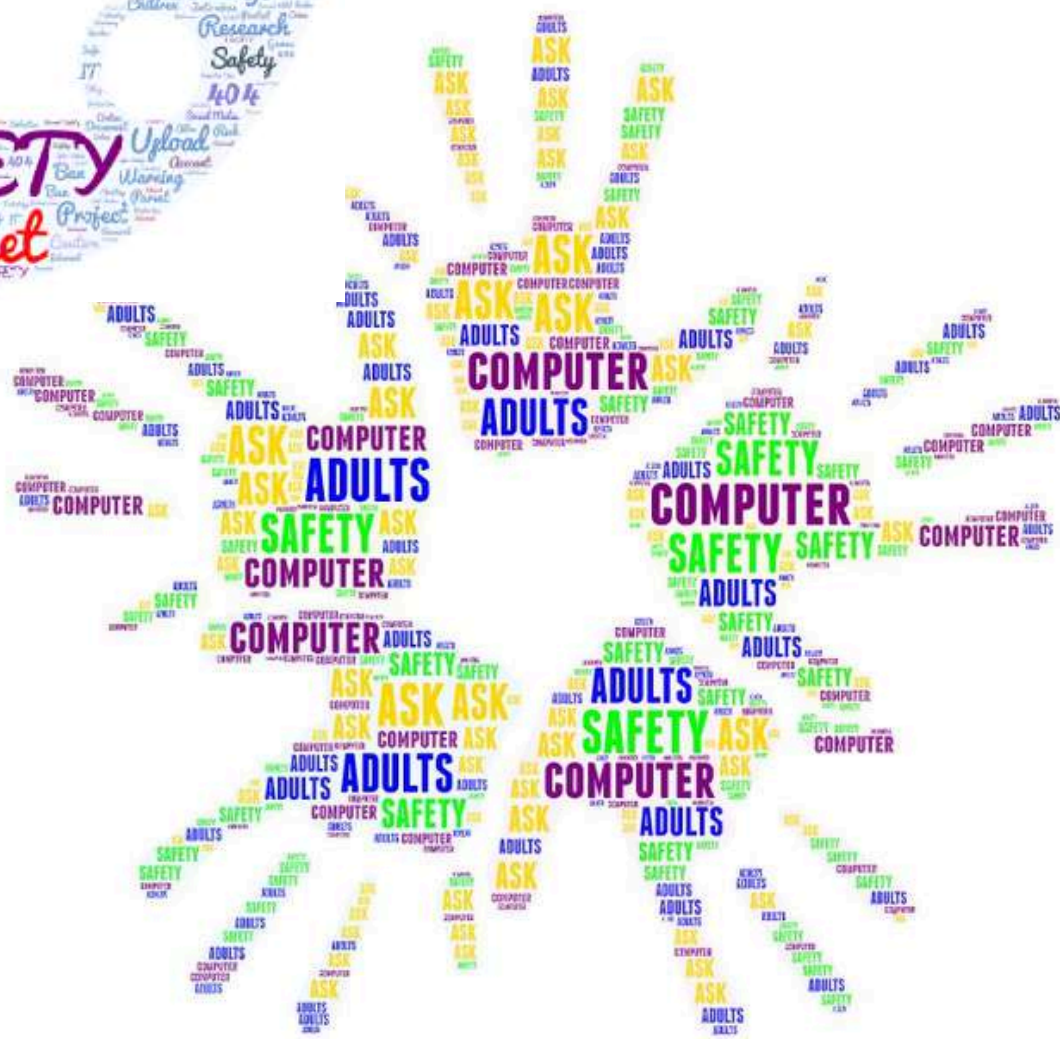

At the I.C. Don Bosco, students had the possibility to speak with a postal police officer who explained us the importance of being safe on the web. He encouraged us to be more responsible when using social networks. We shouldn't send photos because then other people can use them as they want. It is also important to adopt complex and alphanumeric passwords for our accounts. Cyberbullying is also something to be aware of. It involves offenses about physical appearance. Around one in six adolescents has reported being cyberbullied, according to the World Health Organization (WHO)'s European regional office. We should stop all this violence!

**BE AWARE OF
THE
DANGERS!**

A DIFFICULT CHOICE

In Italy, young people have to make a difficult choice at only 13 years old, a choice that can totally change their life. Differently to what happens in other countries, the Italian educational system requires that young people choose their high school at a very young age.

It is difficult to understand the feelings of someone who has been called to make such an important choice, so I interviewed a friend of mine.

How do you feel?

Right now I'm very happy with the choice I have made, but a little anxious for my future.

What have these three years been like?

They have been full of emotions. I have made a lot of experiences and I think I will miss the teachers and the simplicity of middle school.

What high school did you choose ?

I chose liceo linguistico because I love languages even though everyone recommended to me to choose liceo scientifico ... I just listened to my heart.

What do you think high school will be like?

I hope I will find good classmates and teachers, like here. I know I will study a lot, but I like challenges.

Ginevra Piana

OUR SPECIAL DAYS

EASTER IN SICILY

In Sicily Easter is funny, beautiful and rich in traditions. Sicilian people go to the shops and buy decorations, food, drinks, and chocolate eggs. We prepare the "CICIULIU", a Sicilian traditional biscuit. It is prepared with water, sugar, flour, and lard. One or two eggs are placed on the dough and finally some strips of dough are placed on top of the eggs.

It has to be baked at 180° for 20 minutes. One day a group of women from the University of the third age of our village (Santa Maria di Licodia) came to our school before Easter holidays and showed us how to prepare our ciciuliu. They also told us the story of ciciuliu. We really like this activity because it is nice to realize something with our hands!

TOMMASO NICOLOSI

GAMES IN POLAND

In modern day and age kids in Poland enjoy games both the computer ones as well as the classic board games.

Some of the more popular games that come from Polish game studios is world renowned „Witcher 3” by CD project red. Of course Polish people also enjoy some classic board games like monopoly.

We, as a class, had a project to make a board game that teaches you grammar and tenses.

Polish students

SPECIAL DAYS IN TURKEY

There are many days that Turkish citizens celebrate during the year that have a special meaning. It is possible to divide these days into religious holidays and national holidays.

Religious holidays are generally special days included in the Islamic religion and are celebrated in Turkey like every Muslim country. These are Eid al-Adha and Eid al-Fitr. National holidays, on the other hand, are days that have special meanings in the process until the Republic of Turkey gains its independence. A few of them can be exemplified as Victory Day, Republic Day, National Sovereignty and Children's Day, and Youth and Sports Day.

19 MAY YOUTH AND SPORTS DAY

May 19 is the Youth and Sports Day Atatürk gifted young people.

It marks the beginning of a

difficult period of about 4.5 years, which would result in the establishment of the Republic.

Atatürk once said in an interview, "I was born on May 19." This significant day is celebrated as a holiday in our country. Every year on May 19, sports shows and ceremonies take place.

29 October Republic Day

October 29 is the national holiday celebrating the founding of the Republic of Turkey. Every year on this day, various events are held to commemorate the proclamation of the Republic of Turkey in 1923. Mustafa Kemal Atatürk, the founder and first president of the Republic of Turkey, officially proclaimed the Republic on October 29, 1923.

With this proclamation, the Ottoman Empire ended, and the Republic of Turkey, a modern nation-state, was established. Celebrations are usually held throughout Turkey, especially in Ankara. Ceremonies with the participation of state officials take place in the Grand National Assembly building in the capital, where a wreath is presented at Atatürk's mausoleum, and a moment of silence is observed. Additionally, fireworks displays, military parades, and various events are held. This special day is a national holiday, and public institutions, banks, schools, and many workplaces are closed. Activities such as poetry competitions and painting exhibitions are organized among students. October 29 symbolizes the victory of a democratic secular republic based on national sovereignty and is celebrated with great joy and pride.

Eid al-Fitr: Eid al-Fitr or Sugar Feast is a religious holiday celebrated for three days in the Islamic world after Ramadan, which is the month of fasting. It is celebrated on the first three days of Shawwal, the tenth month of the Islamic calendar. It is a holiday celebrated by Muslims, marking the end of Ramadan, a month of fasting. During Ramadan, fasting starts at 5:48 a.m. Before the call to prayer, one must eat and drink. From dawn until 8:22 p.m., Muslims aren't allowed to eat or drink, after which individuals can eat and drink as desired. Ramadan lasts for one month and occurs every year, shifting by approximately 6-7 months each time.

Eid al-Adha: Eid al-Adha is a religious holiday celebrated by Muslims for four days starting from the 10th day of the month of Dhul-Hijjah according to the Hijri calendar.

As an Islamic religious term, Qurban means an animal that is sacrificed, to get closer to Allah and attain the consent of Allah. Based on the story about the Prophet Abraham and his son Ishmael mentioned in the Qur'an, the concept of sacrifice expresses a much more general devotion, the ability of the individual to sacrifice everything for God, submission to God, and being thankful for him. It begins after the Eid prayer on the first day of the holiday. Animals are sacrificed according to Islamic procedures. The sacrificed animals, typically cows, goats, and sheep, are divided into shares and distributed to those in need. The first prayer is recited, and the sacrifice is slowly carried out.

GIVING ADVICES

Feelings are very important and sometimes speaking with someone helps us to see our problems from another point of view.

Read the following letters and if you want to answer to these letters for giving an advice, please write to:

themagicnewspaper@libero.it

Dear readers,
we are writing because
a friend of ours (Maria) has a problem.
She is in love with a schoolmate
(Salvatore) who has never shown any
interest in her until last month.
All started when one day Maria was
watching a film in class. She was sitting by
Salvatore when Salvatore got close to her
and started looking at her. She was
embarrassed and turned her face away
from him. The next day, during the French
lesson, while they were working on an
exercise together, Salvatore looked
intensely into Maria's eyes, slowly getting
closer, until the teacher asked them to pay
more attention to the lesson. The two
continued doing the exercises as if
nothing had happened. Maria was so happy
and told us that she was sure that
Salvatore was in love with her.

Some days later, we found out that he was in a relationship with another girl. You can imagine how sad Maria was! This relationship didn't last much time and Maria tried to cheer him up speaking with him and listening to him.

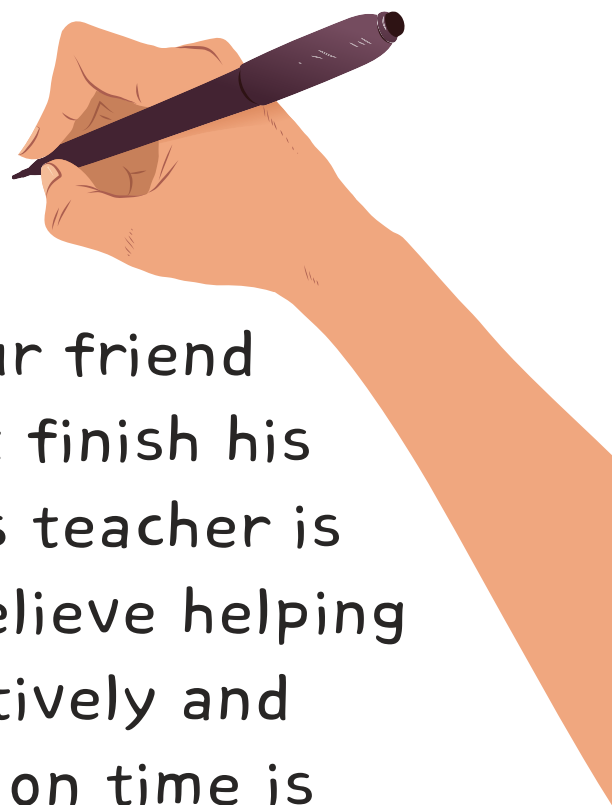

We would like to know your opinion about what has happened. How could we understand if Salvatore is in love with Maria?

And if he isn't, how can we make him fall in love with our friend?

Olga Intrisano

e

Francesca Di Paola

Dear readers,

We are writing because our friend Ali has a problem: he can't finish his homework on time, and his teacher is very upset about it. We believe helping Ali manage his time effectively and complete his assignments on time is essential for overcoming this challenge. Here are some ideas to assist Ali:

1. **Establish a Homework Schedule:** Create a homework schedule where Ali allocates specific time slots for each assignment. For example, one hour of homework followed by a fifteen-minute break.
2. **Limit Phone Usage:** If Ali is addicted to his phone, encourage him to limit his usage to a maximum of two hours per day. This will help him focus more on his studies.

By implementing these strategies, we believe Ali can improve his time management skills and meet his homework deadlines effectively. We talked to Ali about these strategies, but he didn't listen to us. He constantly has problems with teachers and his family because he doesn't do his homework. A lot of homework has piled up because some teachers gave Ali extra assignments unless he completed them. Next week we have got lots of exams, and he needs to study and do his homework, but he isn't doing either. The issue isn't just studying. His family punished him; they took his phone away, so he can't use it anymore. He doesn't pay attention in class, and sometimes he claims he's sick and doesn't come to school, but I think

I believe he has a problem, but he won't confide in me. I'm unsure what I should do to help him. How do you think I can assist him?

Han Hařtemođlu

LET'S DEFEND OUR PLANET

What is climate change? We hear about it all the time, but what is it really?

Climate change means long term changes in temperatures and weather patterns. This variation can occur naturally. However, since the 19th century human activities have been the main factor at the origin of climate change, attributable essentially to the combustion of fossil fuels that produce gasses that retain heat.

Scientists use observations from the ground, air, and space, along with computer models, to monitor and study past, present, and future climate change. Climate data records provide evidence of key indicators of climate change

Climate change is happening now, and it's the most serious threat to life on our planet. Luckily, there are plenty of solutions to climate change, and they are well understood. The world is already 1.2°C warmer than pre-industrial times, and every fraction of a degree counts.

Research shows that with 2°C of global warming, we will face more intense droughts, more devastating floods, more wildfires, and more storms.

There are lots of things we can do to help our planet.

We can shop local and buy sustainable.

This means reducing our food's carbon footprint, buy local and seasonal foods.

We'll be helping small businesses and farms in your area and reducing fossil fuel emissions associated with transport and cold chain storage. Sustainable agriculture uses up to 56 percent less energy, creates 64 percent fewer emissions, and allows for greater levels of biodiversity than conventional farming. Go one step further and try growing your own fruit, vegetables, and herbs. You can plant them in a garden, on a balcony, or even on a window sill.

What else can we do?

Here they are some good solutions:

- planting new trees
- protect the oceans
- choose sustainable means of transport
- reduce the use of plastic
- follow the three Rs
- (recycle, reuse, reduce)
- choose plant-based nutrition
- choose eco-friendly measures every day. For example, it is important to dress (climate) smart. The fashion industry accounts for 8-10 percent of global carbon emissions – more than all international flights and maritime shipping combined – and ‘fast fashion’ has created a throwaway culture that sees clothes quickly end up in landfills.

It is also important to rein in your power use. If you can, switch to a zero-carbon or renewable energy provider. Install solar panels on your roof. Be more efficient: turn your heating down a degree or two if possible. Switch off appliances and lights when you are not using them, and buy the most efficient products in the first place (hint: this will save you money!). Insulate your loft or roof: you'll be warmer in the winter, cooler in the summer, and save some money too.

Act now! Our planet needs us!

EUROPEAN FOOTBALL CUP

The 24th European Championships will officially start on June 14th and end on July 14th. The teams that need to qualify for this competition are: Spain, Scotland, France, Holland, England, Italy, Turkey, Croatia, Albania, Czech Republic, Belgium, Austria, Hungary, Serbia, Denmark, Slovenia, Romania, Switzerland, Portugal, Slovakia, Germany, Poland, Ukraine, Georgia.

There are high expectations about Cristiano Ronaldo's performance who surely will fight until the end to win the final match.

The French team has many strong players worth even 100 million euros. The best soccer players in the European Championship are: Harry Kane, Kylian Mbappè.

The Belgium team is improving the quality of their game thanks to their striker Romelu Lukaku with his 7 goals, 3 headers, 3 assists and 1 penalty.

Even though Belarus has not qualified to participate in the European Football Competitions, compared to other years, they have improved a lot, gaining the fourth place.

Romania ranked first, but in our opinion they don't have good strikers.

Even though Italy ranked last in the last European Championship, the team ended up in the C group with the same points Ukraine has.

Even though Belarus has not qualified to participate in the European Football Competitions, compared to other years, they have improved a lot, gaining the fourth place.

Romania ranked first, but in our opinion they don't have good strikers.

Even though Italy ranked last in the last European Championship, the team ended up in the C group with the same points Ukraine has.

LET'S TALK ABOUT FOOTBALL AT EUROPEAN LEVEL

It is probable that the Real Madrid Football Club wins the Spanish Championship as the team has 12 points more than the Barcelona team which in any case has played really well thanks to the contributions of their striker Robert Lewandowski and the wonderful Pedri and Lamine Yamal.

Girona has played well, arriving in 3rd position despite being an underdog.

Now let's move on to England with the Premier League. Manchester City is the winner of the title, the tournament was fought until the end in fact it was decided on the last day when both Arsenal and Manchester City won. So it was Erling Haaland's team that won the title and the Norwegian striker also won the title of top scorer of the Premier League.

As far as Ligue 1, PSG Football Club is the winner of this championship. Kylian Mbappé played very well.

Now let's speak about Germany. Bayer Leverkusen was surprisingly the winner of the Bundesliga. Xabi Alonso's team was well supported by their striker Victor Boniface with goals scored by Florian Wirtz and Jeremie Frimpong. Bayer Leverkusen has not lost a match since May 2023 and is also the finalist of the 2024 Europa League.

Now let's take into consideration Italy with Serie A. Inter is the team with more scores at the moment, with still five matches to play. Inter has been dragged out by Lautaro Martinez and his teammate Marcus Thuram. Thiago Motta's Bologna Football Team is trying to qualify for the Champions League 2024\2025.

The Juventus Football team had an excellent start and then slowly fell out of balance and today Juve is fighting for third place under Milan which managed to qualify for the Champions League with two matches to play. It is worth mentioning that in this Serie A the teams that need to qualify in the Champions League will not be four as usual but five.

Matteo Veneziano
Lorenzo Castellana
Leonardo Trischitta
Danilo Mangano

The Italy national team is one of the best in the world. Over the years, they've won many major tournaments, including the FIFA World Cup four times (in 1934, 1938, 1982, and 2006) and the European Championship once (in 1968).

Italy's team is known for being exceptional at defending, adhering to their game plan, and having skilled players. They usually focus on solid defense and then quickly counterattack when they get the chance.

Recently, the Italy team has been evolving with new young players and different tactics.

However, they still retain the core aspects of Italian football, such as strong defense and smart tactics.

The Italian national team players include:

- Giorgio Chiellini (Juventus)
- Leonardo Bonucci (Juventus)
- Lorenzo Insigne (Napoli)
- Jorginho (Chelsea)
- Ciro Immobile (Lazio)
- Gianluigi Donnarumma (AC Milan)
- Marco Verratti (Paris Saint-Germain)
- Federico Chiesa (Juventus)
- Alessandro Florenzi (Paris Saint-Germain)
- Nicolò Barella (Inter Milan)

EUROVISION SONG CONTEST

POLISH STUDENTS:

This year in the Eurovision 2024 our country will represent Luna with her song "The Tower". The Eurovision will be on 11th May.

In my opinion this song won't win. It's not bad, but it's not a song for the Eurovision. It's for listening to the radio during the summer.

Last year our country was represented by Blanka with her song "Solo" and at the final she was 19th with 93 points.

Our best achievement was 2nd place that took Edyta Górniak in 1994.

I hope that we finally win the Eurovision.

ITALIAN STUDENTS:

At the Eurovision Song Contest 2024, out of 37 participants, the Italian representative Angelina Mango came in 7th place with "La Noia". Well done Angelina! the winner is Nemo the Swiss representative with "The Code". A song for young people is that of TALI, that is "Fighter" which talks about never giving up and facing the difficulties of every day.

**Martina Seminara
Claudia Zingale
Agata Bonsignore**

There are not representatives of Turkey at the Eurovision Song Contest. We hope to listen soon their songs in this contest.
